

Ruth, Emma and Sue

This month our psychic roadshow arrived in Glastonbury, Somerset, to put three local psychics to the test. Each gave on-the-spot readings to two people picked at random from the street. So how much did the mystics get right? Read on to find out!

Psychic Roadshow

Glastonbury

SUE CLARKE

Sue, 41, presents *Tarot Hour* on Glastonbury Radio. She says: 'I've read the cards for 15 years. I'm also clairvoyant and clairsentient and believe my role is to help people.' Call Sue on 07876-452162 or visit www.sueclarkereadings.co.uk

Vivienne Shepherd, 48, waitress

Sue says

There's something you want to do on your own but you lack the confidence. I want to encourage you to be self-employed – you're more than capable. You've considered having another child, although I'm sensing complications with past births. After a lot

of change in your life, I see you developing your spiritual path and shaking off this lack of self-worth.

Vivienne says

Sue was spot on about me becoming self-employed. I'd love to own a cafe but lack confidence, although I wouldn't say I suffer

from low self-esteem. I have two teenage children but don't want any more, so that wasn't right. I did need a blood transfusion when I had my daughter, though. In terms of change, I've started a new job and separated from my partner.

Jane Davidson, 42, marketing manager

Sue says

You have a good outlook on life and communicate well, but there's a secret wish about your job that petrifies you. You've been feeling down and have struggled with your role as a mum. But you're strong, and I suspect you're a fire sign, such as a Leo or Sagittarius.

Jane says

She was quite accurate about my personality. I think I am

a strong character, and my biggest secret wish is to be able to stand up in front of lots of people at work and speak, but the thought does terrify me! It's true I've been struggling with motherhood a bit recently and I feel as if I'm juggling lots of things at once right now. I'm not a fire sign myself but my husband is – and he's a Sagittarius, too. Overall, I thought Sue was very good.
